

WELCOME

Welcome to the July edition of our newsletter, bringing you the latest updates from the AIROPLANE Trial.

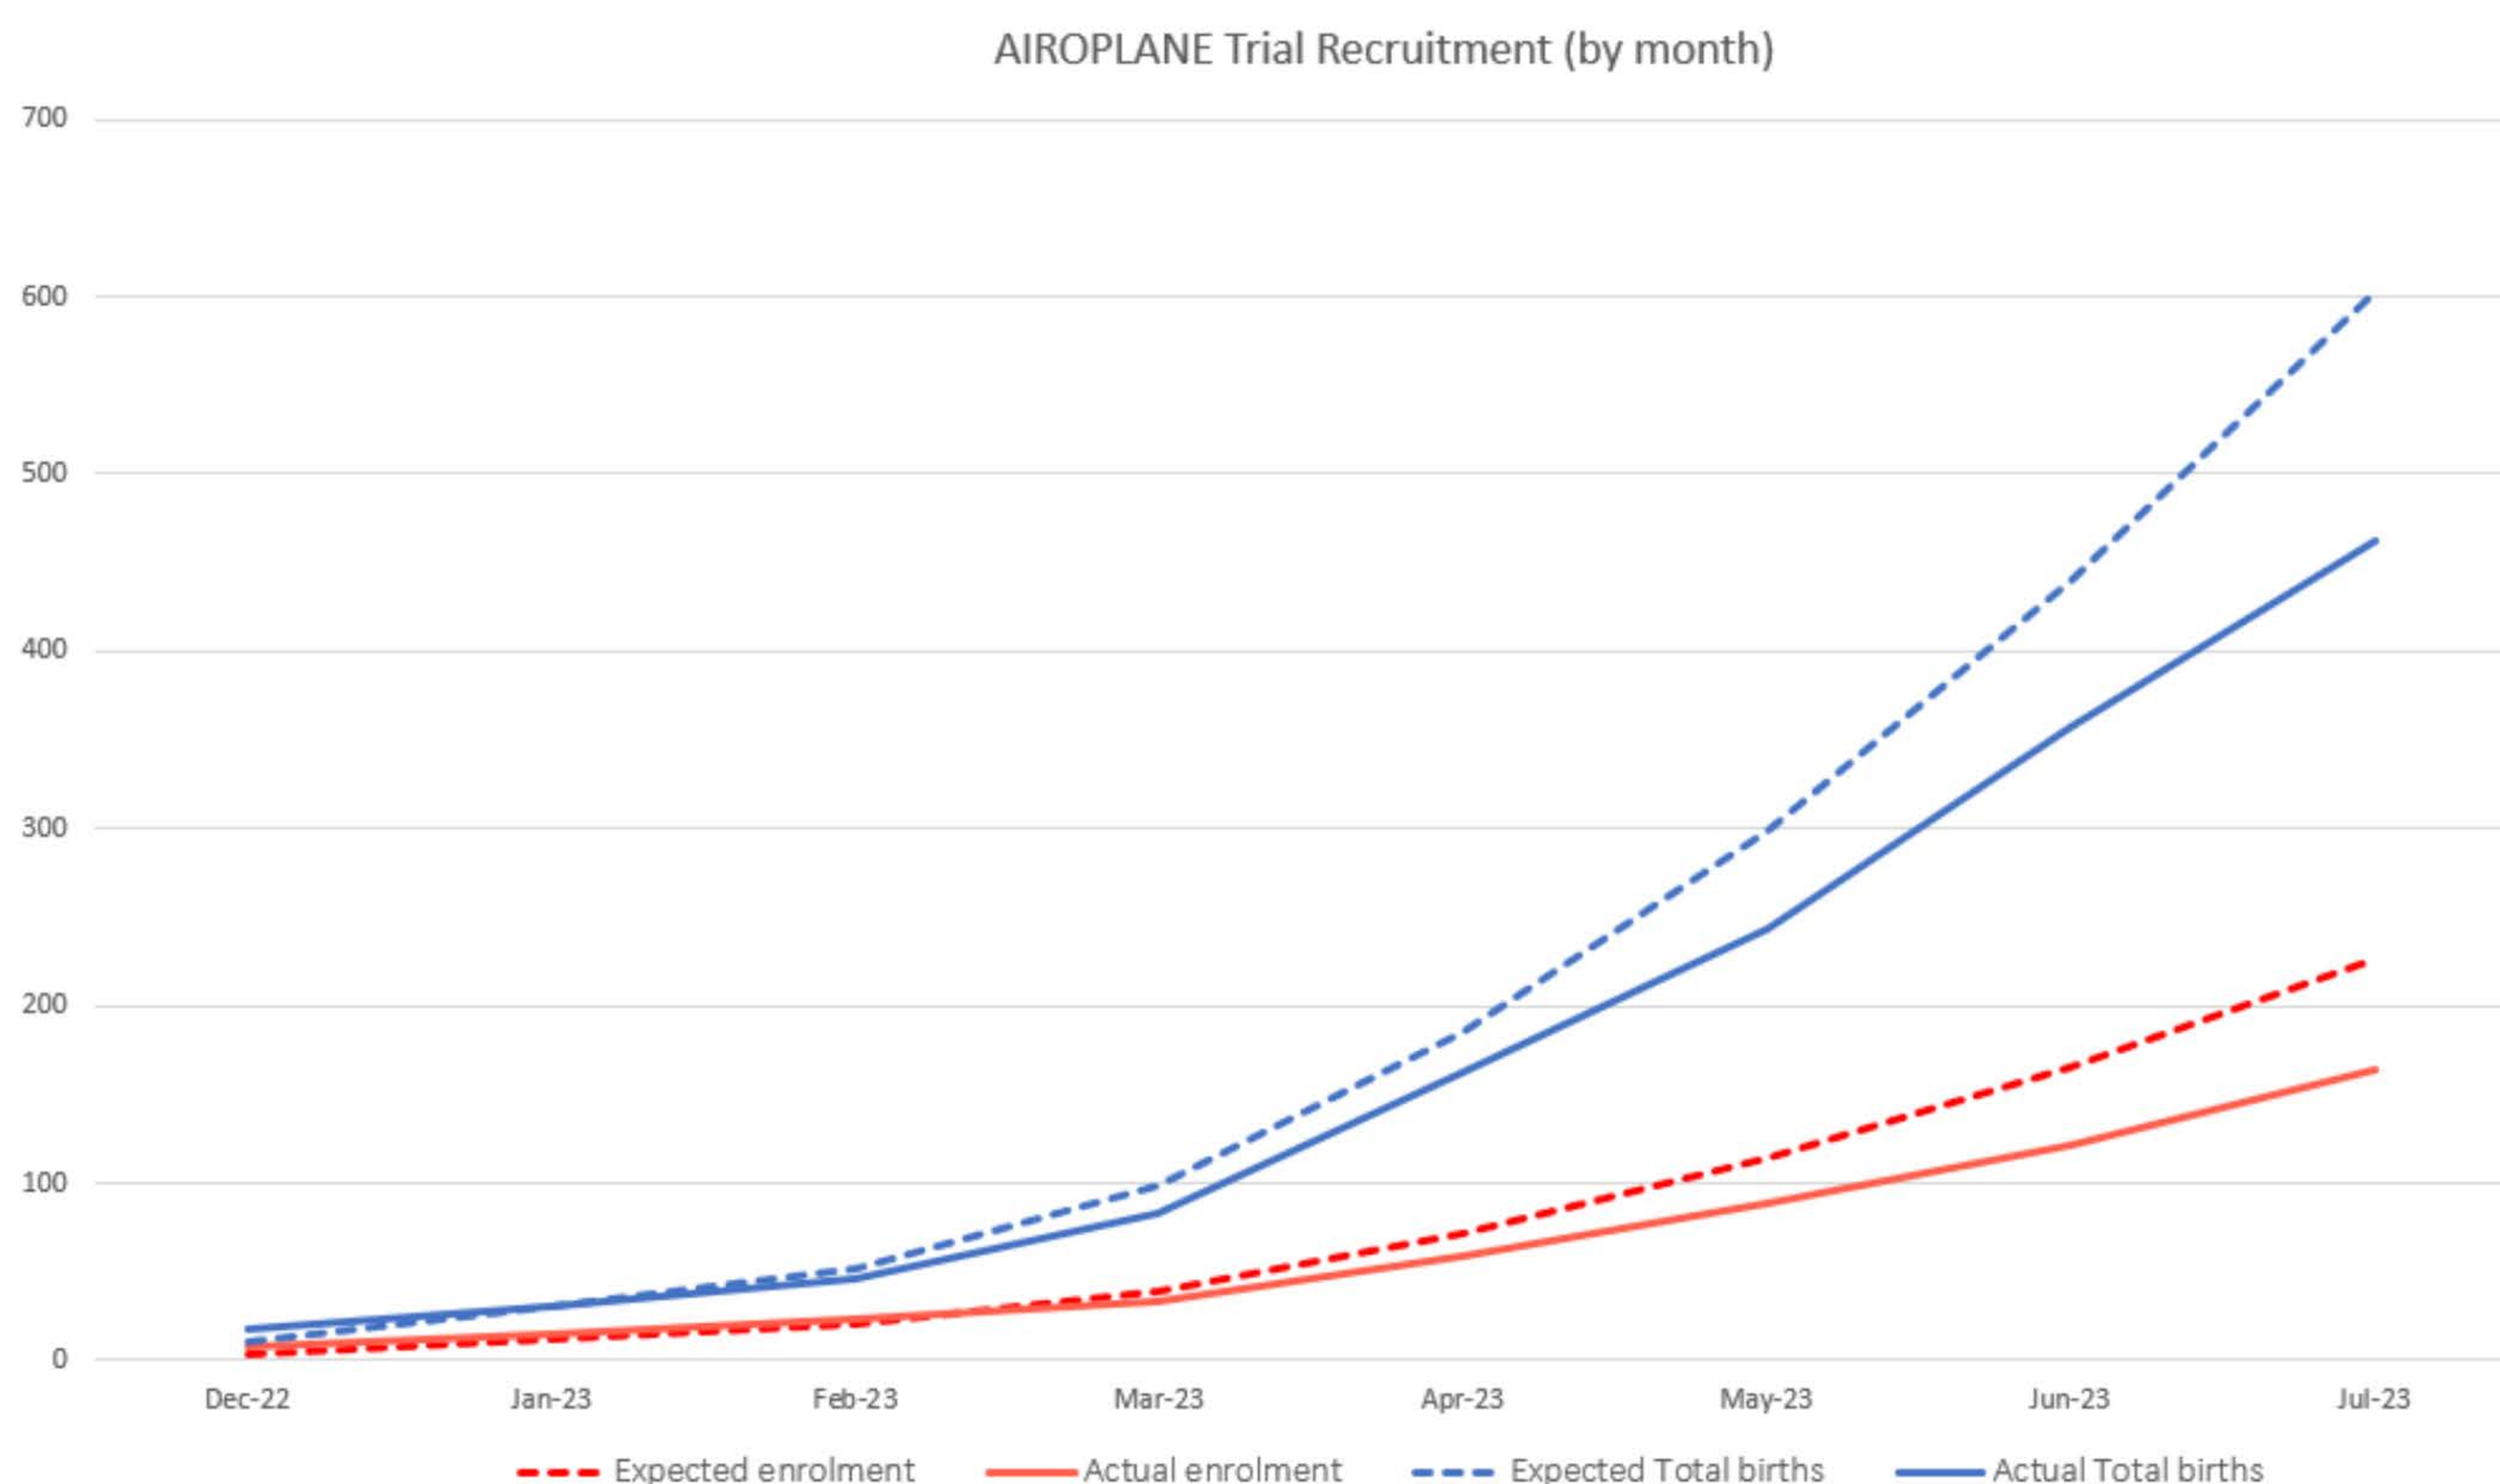

We have now past the 10% enrolment milestone and with 4 sites undergoing Site Training in the coming weeks, we are looking forward to seeing our numbers grow.

Be sure to read through the Update & Announcements and Reminders sections of the newsletter as there are some important information about trial requirements.

TRIAL PROGRESS

UPDATES & ANNOUNCEMENTS

EDUCATION, EDUCATION, EDUCATION!

With the new cohort of Junior Medical Staff starting this month, we want to once again emphasise the importance of educating all staff in all aspects of the AIROPLANE Trial. Please ensure that your site's allocated treatment pathway is clearly communicated, treatment pathway posters are clearly displayed in birth suites and the AIROPLANE Trial is continually mentioned at relevant meetings of staff. Training Resources are available in the Members Portal section of our website for download and distribution.

The trial team are available to provide additional training, please contact AIROPLANE Trial Coordinator Renae Allen at renae.allen@mcri.edu.au.

REMINDERS & RESOURCES

PROTOCOL DEVIATIONS

It is critical to the integrity of AIROPLANE Trial data that we minimise the number of protocol deviations that occur during the course of the trial.

Please highlight to all staff that the allocated oxygen concentration must be delivered **for the WHOLE 3 MINUTES**. Any changes in this time, unless clinically indicated by HR<60 or need for ETT, results in a minor protocol deviation. Sites that have multiple minor deviations of this kind will need to undergo further trial training.

SAVE THE DATE

Cool Topics in Neonatology will be held this year on Wednesday November 29 and Thursday November 30 in Melbourne and the AIROPLANE Trial team will be holding an Investigators meeting. We would love to see you and your team there so pop the date in your calendar now. More details to follow.
